

# 310 Ergo Comfort

## 310 Ergo Comfort

- **Comfort and load alleviation**
- **High flexibility**

Comfort and relief was the main focus during the development process of this armrest. It is a very flexible armrest with many adjustment capabilities, and is very well suited for a lightweight joystick. This kind of armrest is commonly found in trucks, construction vehicles and forklifts. It can also be found on 24-hour control room seats.

Technical Specifications:

Weight without seat adapter: 1,3kg  
Max. weight for a joystick: 1,0kg
